

The Institute of Biology of the Ecole Normale Supérieure (IBENS) and the Department of Biology are glad to announce the

## Career Day – 1<sup>st</sup> Edition

Friday, June 23<sup>rd</sup> 2023

*Salle Favard*

### Programme

9h50 – 10h10

**Vanessa Malier**

Graduate from the Ecole Normale Supérieure Cachan and Pasteur Institute (Immunology). Vanessa Malier is Managing Partner at Kurma Partners, a managing company specializing in healthcare and major player in company building in France and Europe

10h10 – 10h30

**Valérie Crépel**

Research Director at Inserm and Head of the Neuronal coding and plasticity in epilepsy team at INMED (Marseille). Valérie Crépel is the scientific co-founder of Corlieve Therapeutics, which develops gene therapy products for the treatment of epilepsy, and awardee of the 2022 Inserm Innovation prize

10h30 – 12h00

**Open questions and free exchange** with the panel

*The objective of this event is to provide exposure to the biotech & pharma environment and share experience on the development of innovations from the academic world to biotechs, from each of the speakers' perspective. It represents an exceptional opportunity to have valuable insights into both academic and non-academic careers and gather ideas for the insertion in the professional world.*
